

Working with Contractors

If you are a general contractor with high ethical and work standards who is looking to develop a long-term relationship with real estate development firm that will provide you with a steady stream of work and pay you a fair price for the work you do—when you complete it, not weeks or months later—then we are looking forward to meeting you soon.

MCL Housing Solutions, LLC is a professional, full-service real estate solutions firm that buys and sells properties throughout the greater Cincinnati area. We specialize in buying distressed homes at a significant discount and renovating and reselling them. MCL Housing Solutions is excited to be part of the economic rejuvenation of the greater Cincinnati area and its neighborhoods.

Since its inception, MCL Housing Solutions has passionately pursued our goal to help people in our community find an answer to their real estate needs. Our organization is proud to be a member of the Better Business Bureau and is an upstanding member of the greater Cincinnati area.

Company Leadership & Team

Our goal when working with new clients is to make the home buying process fun and stress free. We take pride in knowing our experience in the industry will save you time and money.

Short & Long Term Renovation Goals

As real estate professionals, we are in this business for the long haul. We place a high priority on developing long-term relationships with our customers and our contractors so that we all achieve our goals.

Short Term Goals

Our short term goal is to aggressively expand the presence of our business in surrounding markets. Our goal is to turn around our projects at a rapid pace so we can get paid as quickly as possible and use those profits to immediately start on the next project. This ensures that we and our contractor teams have a steady supply of work.

Long Term Goals

Our 5-10 Year Vision

- Continue our annual residential redevelopment program buying 10 properties in the first year and then 12 properties in year 2 and 3.
- Pursue commercial projects such as apartment building acquisitions and land development. With our management skills and background in the development industry, our natural progression will expand us into the community-development arena.
- Purchase small tracts of land and develop residential communities throughout the greater Cincinnati area. To accomplish this long-term goal, it will be imperative that we develop strong relationships with contractors who have a like-minded goal of expansion.

What this means for you is we will create a growing stream of rehab projects for our contractors to work on long into the future, providing our affiliated contractors with a reliable source of projects for many years to come.
